Our support to LG distributors

Product customisation

- tailored for different B2B needs
- Creating special cycles with selecting washing time, rinse time, water level, etc. to provide optimized washing.

Product knowledge

Even the best solution can be worthless if the people involved do not know how best to use LG equipment.

Training is very important part of our strategy

- Laundry process knowledge
- Product knowledge
- Concept knowledge
- Technical training

Sales and Marketing tools

We developed marketing materials and sales tools which can be adjusted for every country. This will help our partners to promote LG range of products to their customers, increase sales and reduce their marketing costs

Laundry concepts

Jumpstart & LG Laundry Lounge are designed to inspire new entrepreneurs to start laundry business

Service & Spare parts

On our web page you can find downloadable: Product, technical and trade manuals Maintenance tips Installation manuals Spare parts recommended list

Our experience, your opportunity

Bright World has extensive experience and knowledge of the commercial laundry business, understanding of the markets and B2B customers.
